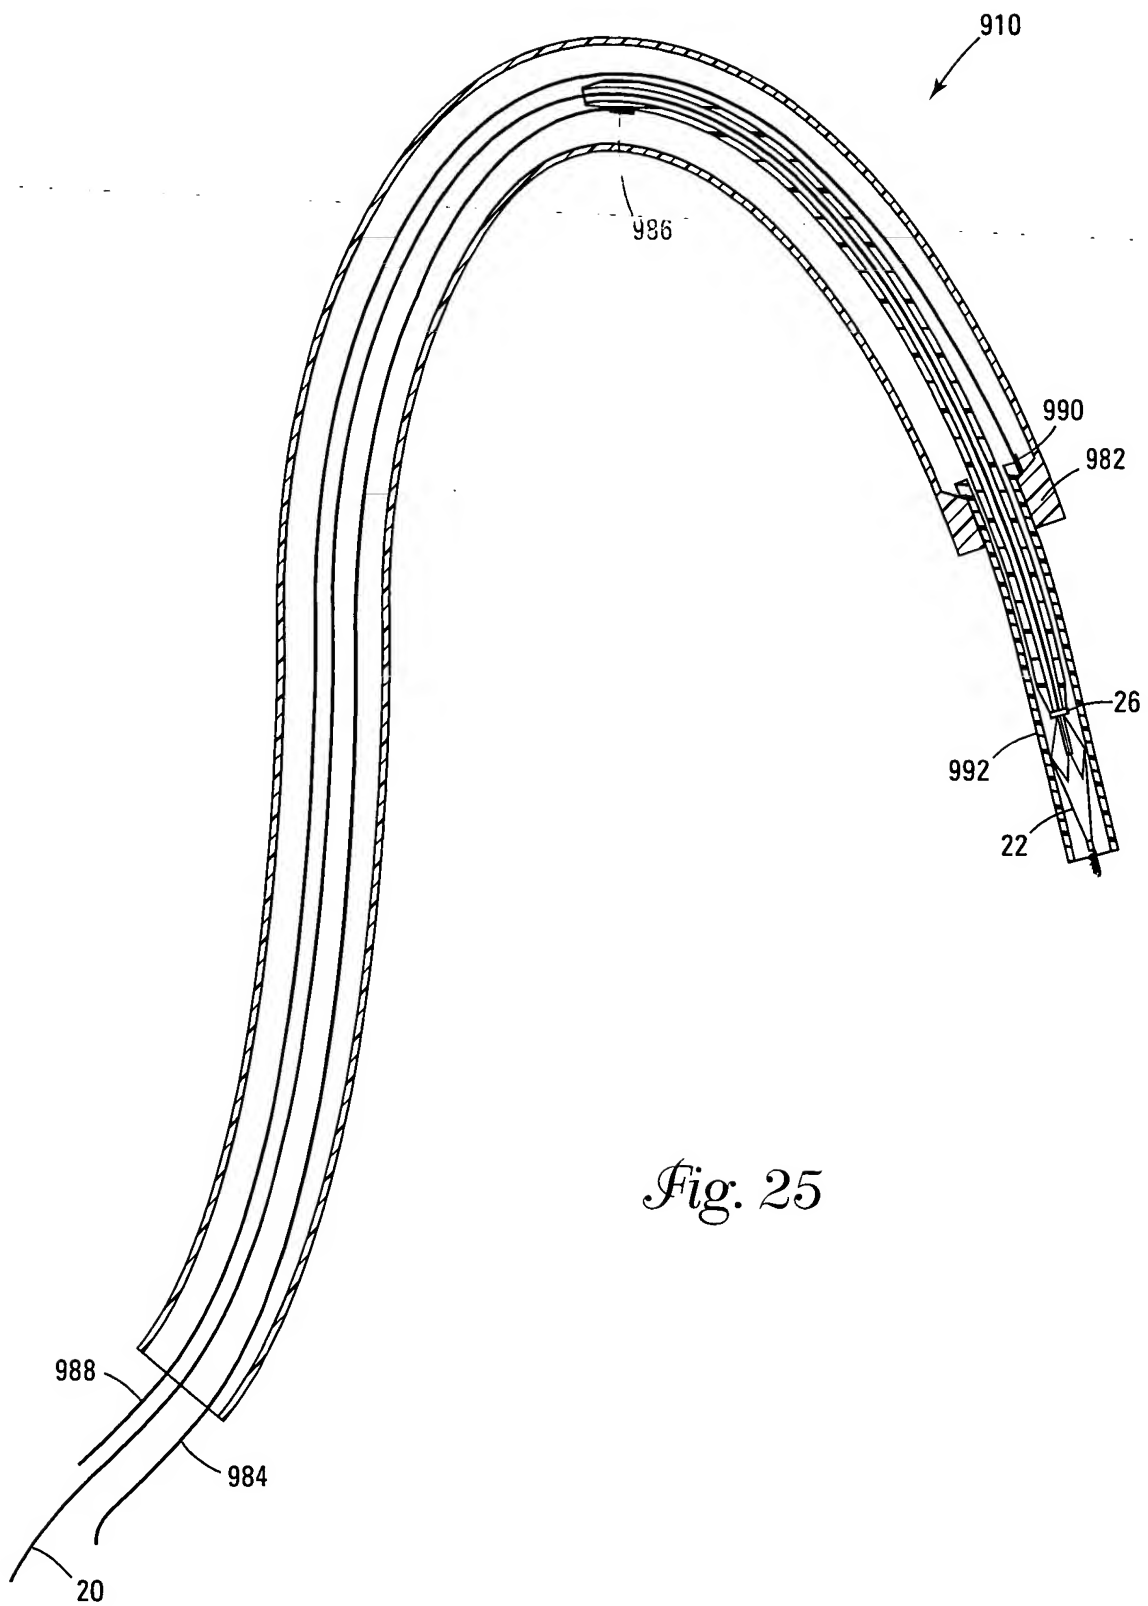

FIG. 23 is a perspective view of a curved, elongated, flexible member 20, such as a catheter, having a proximal end 22 and a distal end 26. The member 20 is shown in a curved configuration, with a dashed line 910 indicating a cross-section of the member. The member 20 is shown in a perspective view, with a proximal end 22 and a distal end 26. The member 20 is shown in a curved configuration, with a dashed line 910 indicating a cross-section of the member. The member 20 is shown in a perspective view, with a proximal end 22 and a distal end 26. The member 20 is shown in a curved configuration, with a dashed line 910 indicating a cross-section of the member.
